Career Objective

Computer Science undergraduate with a strong foundation in full-stack web development, specializing in Python and Flask for backend logic and database-driven applications, complemented by proficiency in React.js, HTML, CSS, and JavaScript for frontend development. Adept at building RESTful APIs, implementing JWT authentication, and working with MongoDB and SQL databases. Comfortable with Git version control and modern development tools. Eager to contribute technical skills and a collaborative mindset to an entry-level web developer role, with a focus on building and scaling real-world applications.

Education

B.Tech – Computer Science & Engineering

Vignan Institute of Technology and Science

2023 – 2027

CGPA: 8.59

Intermediate (MPC)

SR Junior College

2021 – 2023

Percentage: 95.6%

Secondary School Certificate (10th)

Trinity High School

2021

CGPA: 10.0

Technical Skills

- **Programming Languages:** Python, C, JavaScript, SQL
- **Front-End Technologies:** HTML5, CSS3, React.js
- **Back-End Technologies:** Flask, RESTful APIs, JWT Authentication
- **Databases:** MySQL, MongoDB Atlas, JSON
- **Tools:** Git, GitHub, VS Code, Docker, Postman
- **Core Subjects:** Data Structures & Algorithms, DBMS, Object-Oriented Programming (OOP)
- **Soft Skills:** Teamwork, Communication, Time Management, Problem Solving, Adaptability

Projects

FreshMart – Online Grocery Shopping & Delivery Platform

Technologies: React.js, Python, Flask, MongoDB Atlas, JWT, Razorpay

- Developed a full-stack grocery e-commerce platform with Customer, Admin, and Delivery Agent modules.
- Built RESTful APIs for authentication, products, cart, orders, and payments using Flask and MongoDB Atlas.
- Implemented JWT authentication, Razorpay integration, PDF invoice generation, and a responsive React.js interface.

SkillSphere: AI-Powered Career Navigator

Technologies: Python, Flask, NLP, Machine Learning, JSON

- Developed an AI-powered career guidance platform using NLP and Machine Learning.
- Built Flask REST APIs to analyze user skills and recommend suitable career paths.
- Used JSON files to store user profiles, skill assessments, and personalized learning recommendations.

Certifications

- Programming Essentials in C – Cisco Networking Academy
- Basic Python Programming – HackerRank Online Certification
- Software Engineering Job Simulation – JPMorgan Chase & Co. (Forage)
- GenAI Powered Data Analytics – TATA
- Data Analytics – Deloitte

Workshops & Hackathons

- 24-Hour Hackathon on Web Development – Organized by VITS (2024)
- 24-Hour Hackathon on Agentic AI – Organized by VITS (2026)
